Adjustments to the Agenda

Public Comment (Non-Agenda Items)

Lisa Trombley discussed several topics, including funding for the algae bloom study in Maquoit Bay, the need for more harvesters on the committee, concerns regarding the oyster farms, and the potential for the town to lose control of those lands.

Blaine Lund mentioned that he applied for a position on the committee but was not appointed.

George Bernier asked whether the town would reimburse losses stemming from the PFAS spill and whether the oyster farms had been shut down due to pollution. He also said that there should have been fewer licenses issued before conservation efforts were implemented.

Ray Trombley spoke about the rebuilding of Simpsons Point, explaining why it could not be motorized and was restricted to hand-carry access only. CRM Devereaux clarified that this limitation was part of an agreement with the state.

Keith Bouchard advocated for the inclusion of airboats at Simpsons Point and disagreed with the winter closures or the two-month closure of Maquoit Bay.

Brian Hawkes raised concerns about the closure of Maquoit Bay during bird migration and reiterated his objections to winter closures.

72. Proposed ordinance amendments: *(Action Item) (This item was discussed at 7:09 p.m.)*

- **Harvester Reporting (Presentation)**
- **Shellfish Apprenticeship**

The vote on the Student Apprenticeship program will be voted on separate from the ordinance amendments.

Clerk Smith and CRM Devereaux introduced this item.
