### MEMORANDUM

---

**TO:** Town Manager

**FROM:** Trey Crews, PE, Town Engineer

**DATE:** January 8, 2026

**SUBJECT:** Conversion of Town Hall Place to One-Way Traffic and Related Parking and Loading Ordinance Changes

---

Town Hall Place is a public roadway approximately 200 feet long that connects Maine Street to the former Town Hall and Central Fire Station site. It currently allows two-way traffic and includes a single loading zone on the south side. On-street parking is restricted in order to maintain two-way travel.

During the design of the Maine Street Streetscaping project, a significant grading challenge was identified on the block between Pleasant Street and Town Hall Place. This area has a large change in elevation within a limited right-of-way, making it difficult to meet Americans with Disabilities Act (ADA) requirements. While the original design met ADA standards, it would have eliminated outdoor space in front of adjacent businesses. This would have negatively affected opportunities for outdoor dining, retail displays, and similar uses.

To both maintain ADA compliance and preserve usable outdoor space for these businesses, a curb extension (bump-out) was determined to be necessary. This additional sidewalk width allows the grade requirements to be met while still providing functional space for adjacent properties. However, this design change requires modifying the existing angled parking spaces on Maine Street along this block.

After consultation with the affected property owners, there was agreement to convert the angled parking spaces to parallel parking in order to accommodate the curb extension. This change would reduce the number of parking spaces on Maine Street from nine to five.

To offset this reduction, staff explored opportunities to add parking nearby. It was determined that converting Town Hall Place to one-way traffic would allow for the addition of parking spaces and a designated loading zone. Under this configuration, five new parallel parking spaces would be created on Town Hall Place. Overall, this results in a net gain of one parking space in the immediate area.

To implement this design, the Town Engineer recommends that the Town Council consider amendments to *Chapter 15 – Traffic and Vehicles*, including *Article III – Specific Street Regulations* and *Article IV – Stopping, Standing, and Parking*. The proposed ordinance changes would establish Town Hall Place as a one-way street, relocate an existing loading zone, and designate parking on the north side of Town Hall Place as two-hour parking, Monday through Saturday, from 8:00 a.m. to 6:00 p.m., consistent with parking restrictions on downtown Maine Street.
