

Here are tonight's meeting minutes. It's been a pleasure working with y'all for the last few years.

- Call to Order at 5:01pm
- In Attendance: Tim Carr, Jeremy Litchfield (chair), Blaine Moore (secretary), Mark Fochesato (vice chair), Caleb Chang (BHS), Dennis Wilson (town arborist), Mike Ferry, Michael Halmo, Nathaniel Shed (town council)
- Dennis and Nat confirmed that the Brunswick Town Commons Committee is being shut down and folded into the new Parks & Recreation committee after last night's Town Council meeting.
- Primary agenda item was final work on the new trail map:
 - **Motion: From Mark's suggested trail map changes: add the orange trail section back onto the map, including 3 additional trail number signs, giving Jessica at the town office the discretion to renumber the trail intersections to account for the new numbers. Blaine motioned, Tim seconded, passed unanimously.**
- **Mark and Blaine are confirmed to be the two members going forward with the merging into the new Parks & Recreation committee.**
 - There is optimism that they will be good advocates not just for the Town Commons but for all parks in town.
 - Continuation of the Friends of the Commons group will be considered by the new Parks & Recreation committee to determine what form it may take.
 - Some of our priority projects may go to the Conservation Commission rather than to Parks & Recreation.
- Nat shared a new contact email address so he can stay involved and in touch as he will be stepping off of the town council soon: nrshed@gmail.com
- Appreciation was shared for what the committee has accomplished recently and over the last few years, and hope that some of our projects may be easier to accomplish with the new committee and having a larger impact than just one piece of property.
- Meeting adjourned: 5:27pm
