The applicant shall have financial capacity to design, construct, operate, and maintain the development. Evidence of financial capacity must be provided prior to a decision on an application, except that the applicable review authority may defer a final finding on financial capacity by placing a condition on an approval that requires the applicant to provide final evidence of financial capacity satisfactory to the Director of Planning and Development before the issuance of any building permit.

**B. Specific Standard:**

- (1) The applicant must show that they have right, title, or interest in the development parcel.
- (2) The application for approval of a proposed development must include evidence that affirmatively demonstrates that the developer has the financial capacity to design, construct, operate, and maintain the proposed development, except in cases in which the review authority defers a final determination as set forth in Section (A) above. Evidence of financial capacity must include, but is not limited to, the following information:
  - a. Cost estimates. Accurate and complete estimates of the development, including all proposed phases. The itemization of major costs may include but is not limited to, the cost of the following activities: land purchase, erosion control, roads, sewers, structures, water supply, utilities, pollution abatement, landscaping, and restoration of the site, if applicable.
  - b. Time schedule. The time schedule for construction of all phases proposed.

A letter from a financial institution, governmental agency, or other funding source indicating a commitment to provide to the applicant a specified amount of funds and the uses for which the funds may be utilized. In cases where funding is required but there can be no commitment of money until approvals are received, an applicant may submit a letter of "intent to fund" from an appropriate funding institution indicating the amount of funds intended to be provided to the applicant and the specified uses for which the funds are intended.

In cases where one or more entities are part of the applicant's business structure, evidence must be submitted describing the applicant's business structure and demonstrating that the proposed financing is clearly linked from the financing institution to the applicant.

explaining the report, and evidence that funds have been set aside for the proposed development. The financial information in any annual report and any financial statement should be audited, or an explanation provided why audited reports are not available.

- (B) Copies of bank statements of accounts held by the applicant or other evidence indicating that funds are available and have been set aside for the proposed development.

iii. Government agency

- (A) Evidence that funds to complete the development have been included in an approved budget and that grant money or other funds have been obtained to cover the development costs.

- (B) In cases where funding is required but there can be no commitment of money until approvals are received, a detailed plan outlining how funds for the development will be obtained and evidence that legal authority exists to implement the plan.

iv. Non-profit organization

- d. Phased Development. In cases of phased development or long-term construction projects, the department may find that the applicant has demonstrated adequate financial capacity to comply with department requirements provided (a) the applicant has demonstrated financial capacity for a separate first phase, and (b) the permit is conditioned to require that evidence of financial capacity adequate for review and approval be submitted to the Department prior to construction of each subsequent phase. Construction of each subsequent phase may not begin prior to approval of financial capacity for that phase.
- e. If the applicant is an entity registered with the Secretary of State of any state, provide a Certificate of Good Standing or other evidence of existence and good standing satisfactory to the Planning Board.
