**To:** Brunswick Town Council  
John Eldridge, CPFO, Town Manager  
**From:** Anna Breinich, FAICP  
**Subject:** Deadline Extension of Automatic Vacation of "Paper Streets"

At the request of Town Manager, John Eldridge, Tax Assessor Cathy Jamison, Public Works Director/Town Engineer, John Foster, and I conferred regarding the pending deadline of the Town's 1997 Notice to Extend Deadline of Automatic Vacation of "Paper Streets," passed by Town Council on September 22, 1997. By that passage, the deadline was extended for 20 years, September 2017. In accordance with M.R.S., Title 23, §3032, known as Proposed, Unaccepted Ways Deemed Vacated, the notice can now be extended for another 20 years. It is recommended by Town Staff to extend the deadline for another 20 years as acted on in 1997.

In 1997 Town staff and Planning Board did a very detailed review and compilation of "paper streets," defined as a proposed, unaccepted way or portion of a proposed, unaccepted way laid out on a subdivision plan recorded in the Registry of Deeds prior to September 29, 1987. It is recommended that Town Council take action to extend the deadline of automatic vacation of "paper streets," as previously listed and approved by Town Council on September 22, 1997, for a period of 20 years from the date of passage. Said extension will provide for all listed "paper streets" to be excepted from the operation of time limitations of Title 23, §3032, allowing the rights of incipient dedication to public or private use to remain in effect unless otherwise terminated or accepted in accordance with law. Upon action by Town Council, the attached proposed 2017 notification and listing must be filed with the Cumberland County Registry of Deeds prior to September 22, 2017.

It is further recommended that Town staff update the listing of "paper streets" as needed.

Dear John:

This is in answer to your letter of September 16, 1969 relative to Adams Road.

We have spent considerable time researching the County Records and it appears that Adams Road is a portion of an old county road laid out originally about 1763 and ran in a rather roundabout way from the Gore lying between the town of North Yarmouth and Brunswick across the Brunswick Plains, then westerly of and parallel with the New Meadows or Stevens River, and crossing the river near its northerly end, into what is now Sagadahoc County, to the Whisgig Mills.

The location of the northerly end of the road was changed in 1797 and again in 1826.

So an action for discontinuance should be by petition to the County Commissioners.

Sincerely yours,

Good Morning Ryan,

Correct, everything on the site has been surface paved. We don't have any outstanding items at this time that would keep the road from acceptance. The only item that you may want to consider is vegetation. The roadway/ditch embankments have not fully vegetated.

Let me know if you have any questions.

Thanks,  
Owen

Good Evening,

Has Beacon Ridge received surface pavement over its entirety? Are there any concerns with the Town proceeding with the acceptance process?

Thank you

Re: Industrial Parkway North/Bibber Parkway

Dear Alice:

I am writing to respond to your memo regarding Industrial Parkway North/Bibber Parkway. I believe the Council's action on August 16, 1993, established Bibber Parkway as an official Town way. The highway law allows Town ways to be created by laying them out; by dedication and acceptance; and by user. Because Industrial Parkway North/Bibber Parkway was already owned by the Town, and was shown on a subdivision plan, I consider the action taken to be an implicit dedication and acceptance, creating a Town way. The description would be as shown on the plan. However, in the future, I suggest the method chosen to establish Town-owned land as a Town way be specifically identified.

Sincerely,

Geoffrey H. Hole

BRIDGE RD.

Dear Mr. Bibber:

In reply to your letter of April 27th.

A road was laid out in 1773 on about the same location as the ~~Bridge Road~~ which extended to where the present North Bath Road in Bath is located. This was only two rods wide and was soon discontinued in 1791, but in 1797 a new road was laid out by the Court of General Sessions on the same general location after Lincoln County had built a road as far as the Cumberland County line. This road was four rods wide, except where it crossed the marsh, where it was two rods wide, and at that time was sometimes called the Whizzegs Mill Road. The layout of this latter road is found on Page 501 Book 2 of the records of the Court of General Sessions and the width is apparently the same today as it was 250 years ago.

Bay Bridge Road also off the Bath Read was redefined in recent years and a width of 3 rods was established in 1947. We can give you descriptions of the ~~Bridge Read~~ if you need it.

Yours very truly,

## MEMORANDUM

---

TO: Tom Wakefield  
FROM: Alice Goodwin  
DATE: 23 May, 1996  
SUBJECT: Bridge Road

*AMG:*

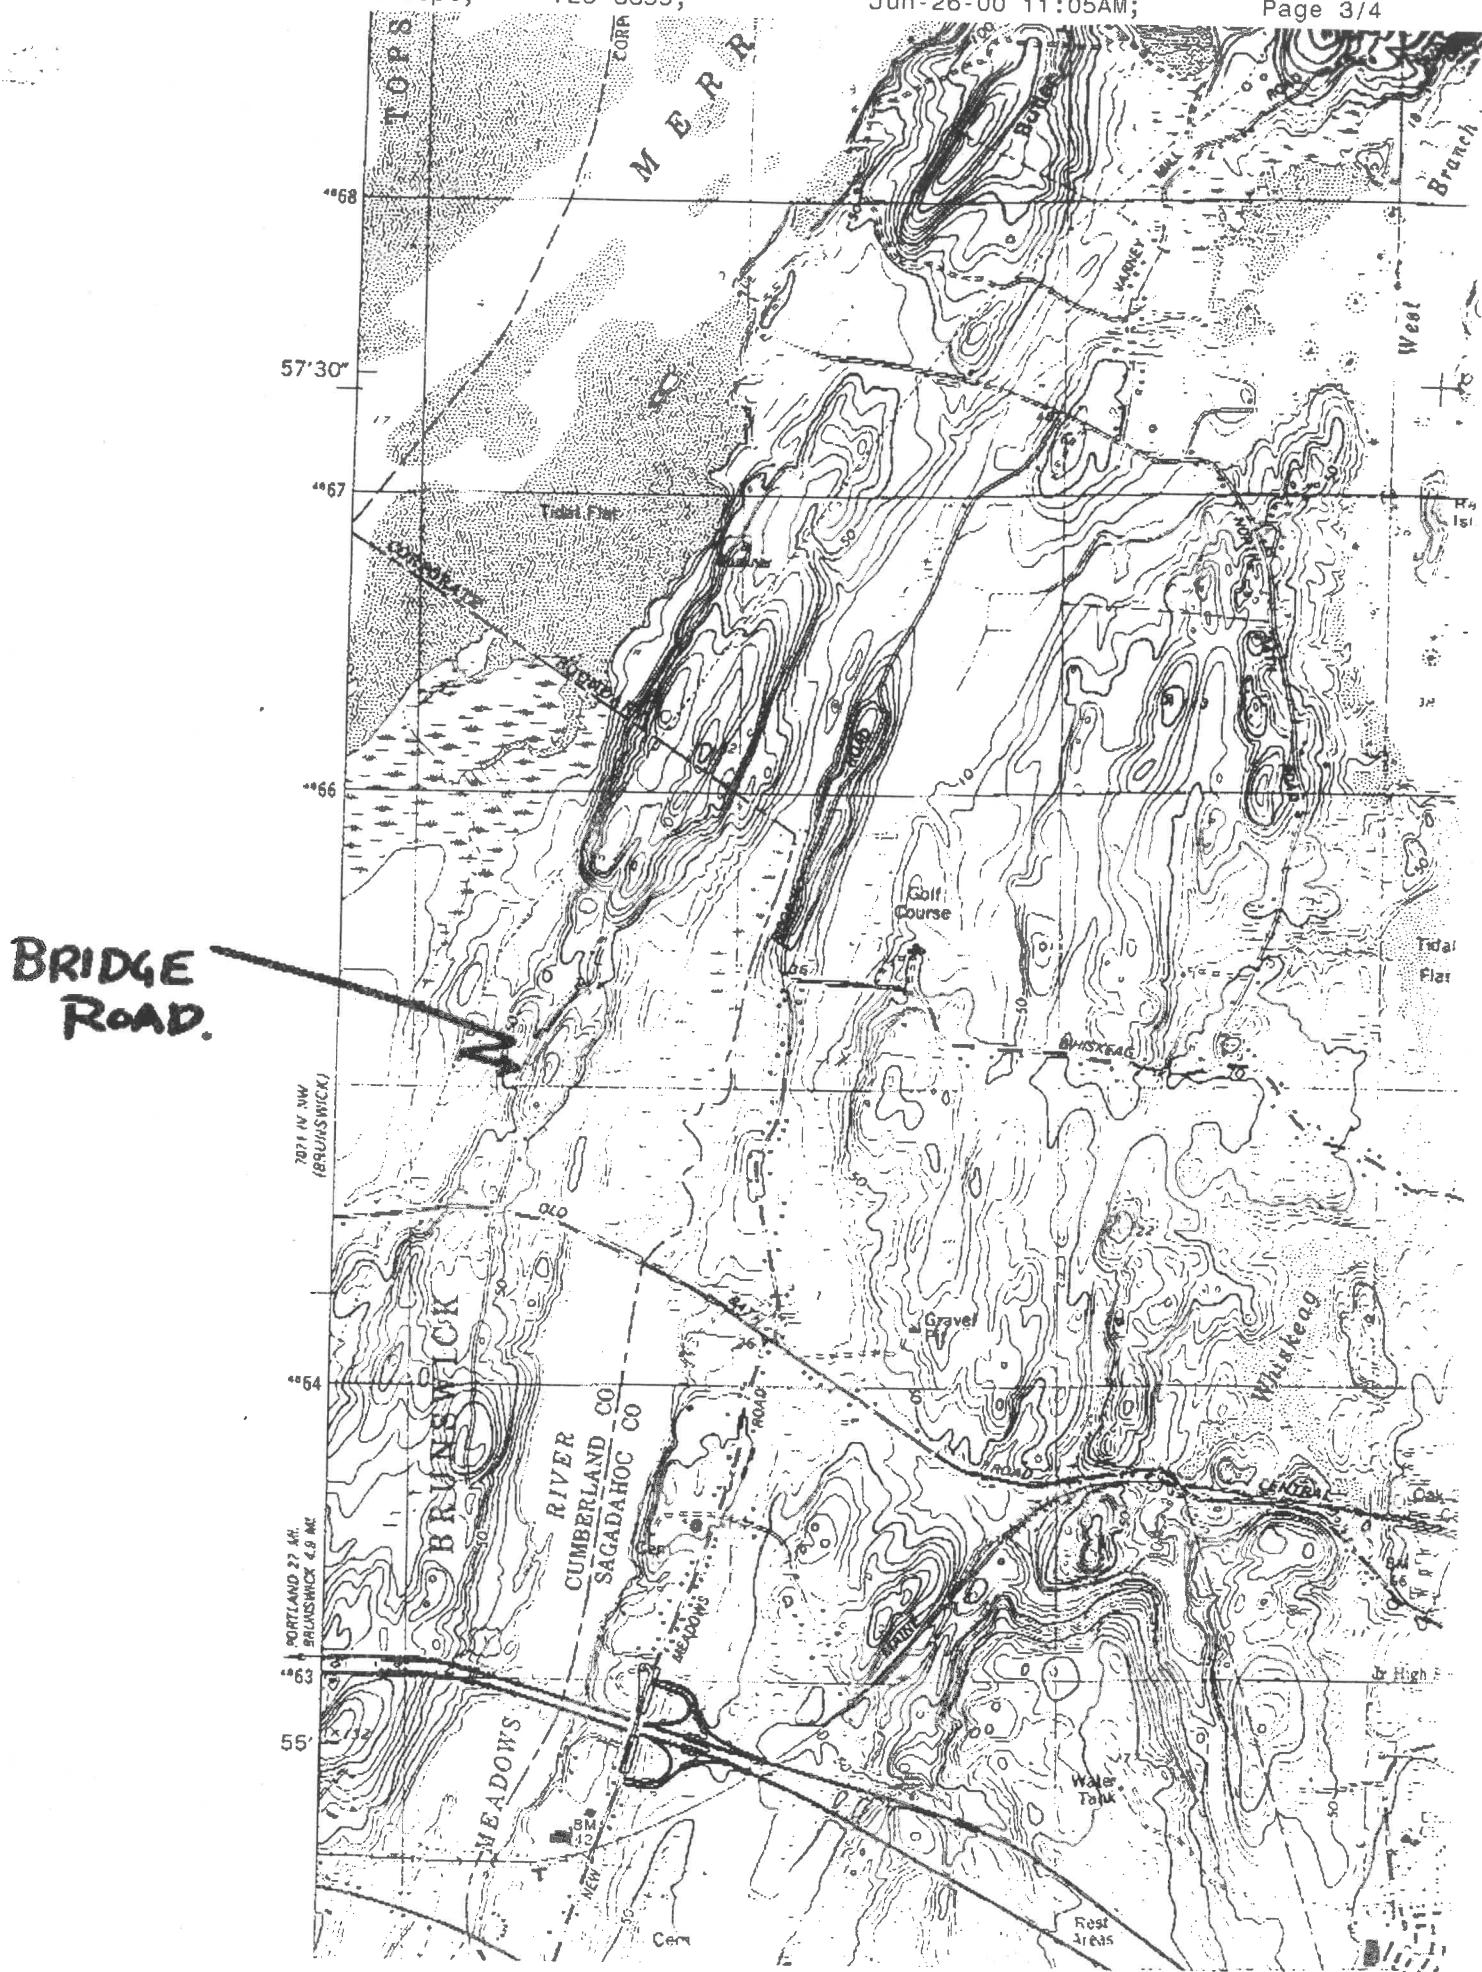

---

I am enclosing information I have within my files on the Bridge Road.

It is clear, that Bridge Road from the current Old Bath Road to the west line of Lot 19A on Map 51, was part of the old county road through Brunswick which ran from Freeport to Bath. It appears, at one time, this county road continued more or less straight towards the current North Bath Road in Bath. Then in 1826, the county road was re-routed by a sharp turn to the right across the marsh towards Whisgig Mills.

It is obvious the "North Bath Road" portion has not be used regularly for several years (maybe as far back as 1826), but at least a portion of it was part of the original county road layouts.

Give me a call once you have had a chance to review this information.

**SUBJECT:** Status of Collinsbrook Road in Town of Brunswick  
(a/k/a Baker Road in Town of Freeport

Dear Jim:

I am writing in response to your request for the status of the 2,000 foot section of Collinsbrook Road that abuts out Town Line with Freeport and turns into Baker Road in Freeport. We do not maintain this 2,000 foot section of road and presume the road has been abandoned by the Town of Brunswick. We also believe a public easement exists on this section of road as we are aware the Town did use this piece of road up until about 1954 to access a gravel pit near the Town Line.

As regards our 5 year Capital Improvement Plan, we do not have in it, or are we proposing to add to it, any improvement work by the Town of Brunswick for this 2,000 foot section.

I hope this provides the information you were looking for. If you have any further questions on this issue please let me know.

Sincerely,

TOWN OF BRUNSWICK

MINUTES, OCTOBER 2, 1989  
PAGE FOUR239. RECEIVE LEGAL OPINION FROM TOWN ATTORNEY MARTIN WILK IN RESPONSE TO GORDON AND RUTH FRASER'S LETTER DATED SEPTEMBER 5, 1989.

Attorney Wilk's legal opinion indicated "If more than 30 years has elapsed since the Town has done any maintenance on the Hacker Road, abandonment would be presumed and the Town would be under no further maintenance obligation.

Regarding filling the gravel pit, Mr. Wilk's opinion is "absent an agreement between the then owner of the property and the Town of Brunswick regarding the Town's obligation to fill in the pit, to cover it with loam and to reseed it, the Town would be under no legal obligation to do so. Even if such an agreement had been entered into at some point back in the 1950's, the statute of limitations would have long since passed on any claim by the then owner with respect to an alleged breach of contract claim."

240. TAKE ACTION CONCERNING SETTING A DATE FOR A PUBLIC HEARING ON THE HIGH SCHOOL REFERENDUM.

A MOTION WAS MADE BY COUNCILOR CHATER, seconded by COUNCILOR BURGESS AND UNANIMOUSLY VOTED TO SET A PUBLIC HEARING TO DISCUSS THE MERITS OF THE HIGH SCHOOL REFERENDUM FOR WEDNESDAY, OCTOBER 18, 1989 AT 7:00 P.M. AT THE BRUNSWICK JUNIOR HIGH SCHOOL (ASSUMING THE SPACE IS AVAILABLE). 9-0.

241. RECEIVE A REPORT FROM THE HIGH SCHOOL REUSE COMMITTEE.

Dennis Lemieux, Chairman of the High School Reuse Committee gave a brief summary of their report (the report had been distributed to the Council as part of their agenda packet).

The analysis indicated that "After careful consideration, the Town Council's committee on Re-Use of the High School recommends the High School be retained for municipal purposes in the form of a community center. Such a center would house all municipal departments as well as specialized school uses and area non-profit agencies on a rental basis."

The council received the report and expressed their appreciation to the committee for a job well-done. No further action was taken.

242. RECEIVE A REPORT FROM THE TOWN MANAGER ON THE SANITATION ORDINANCE CONCERNING THE INERT LANDFILL (STIMP DUMP).

After meeting with Dorothy Burgess and Tom Weddle, members of the Solid Waste Management Advisory Committee, as well as David Lane and C. B. Begood, Town Manager Gerrish compiled a list of recommendations for changes in the Sanitation Ordinance. These recommendations are a compromise between what was suggested last time and the discussions that Council had. If Council agrees, a Public Hearing can be scheduled for a future Council meeting.

Office of the Town Clerk

Brunswick, Maine, February 25, 1976

I hereby certify that the following is a true copy of the record of the Town Council meeting of February 23, 1976 as recorded on the records of the Town of Brunswick, Maine:

## RETURN OF MUNICIPAL OFFICERS

## LAYOUT OF TOWN WAY

The Subscribers, the Municipal Officers of the Town of Brunswick, upon the application of Douglas L. Morton, to lay out the following described Town Way in said Town, having given seven days written notice of our intentions by posting said notice on February 10, 1976 in two public places in said Town and in vicinity of the said Way, to wit, on the bulletin board at the main entrance to the Municipal Building, 28 Federal Street, and at the bulletin board at 126 Maine Street, Brunswick and on utility pole #377 on Richards Drive, and having in said notice described the Way, and having met in conformity with said notice in the Court Room of the Municipal Building at 7:30 o'clock in the afternoon, and having personally examined the Way proposed, are of the opinion that there is occasion for a Town Way for the use of said Town as applied for; we therefore lay out said Way as follows to be known as Colonial Drive.

Beginning at a point on the northeasterly sideline of Richards Drive said point being S53°-20'E along said side of Richards Drive a distance of 12.15 feet from the Westerly corner of land conveyed by John Brush to Louis Roy by a deed dated November, 1967 and recorded in the Cumberland County Registry of Deeds Book 3021, Page 469; thence northeasterly and easterly a distance of 815 feet more or less to a point which is the center of a 53 foot radius circle. Said way also includes all of the land within said circle at the last described point, the total area being approximately 1.1 acre. For a more complete description, the above way is shown on a plan titled "Colonial Drive" by Howard F. Babbidge dated December 4, 1967 and recorded in the Cumberland County Registry of Deeds plan book 78 page 18, said way being shown as Colonial Drive.

And we do hereby award no damages in the laying out of such described way.

Given under our hands this twenty-third day of February, A.D., 1976.
