

BYSL Inclement Weather

If thunder is heard or lightning is seen at the field then the practice should be canceled and everyone should seek a safe place to wait out the storm.

The Recreation Department will close the fields if the conditions are poor enough to make the fields unplayable or if we feel playing on the fields will potentially compromise the long term condition of the field. If the fields are closed then notification will be placed on the Parks & Recreation home page and placed on our Facebook page.

If the fields are playable and/or practices are not canceled then decisions to play or not play will be made by each coach. Sometimes thunderstorms pop up quickly and a last minute decision by the coach will need to be made. Keep in mind that wind and temperature can make playing conditions uncomfortable for young athletes.
